The Speaker laid before the House, as unfinished business, on its passage to engrossment,

H. B. No. 394, A bill to be entitled "An Act to amend Sections 4 and 5, of Chapter 88, of the General Laws of the Forty-first Legislature, Second Called Session, page 172, said Sections appearing on page 175 of said Acts, and declaring an emergency";

The bill having heretofore been read second time.

Mr. Moffett offered the following amendment to the bill:

Amend House Bill No. 394, by adding Section 2, and renumbering the following sections accordingly:

"Sec. 2. That Section 6, of Chapter 88, of the General Laws, of the Forty-first Legislature, Second Called Session, be amended, so as to hereafter read as follows:

"Sec. 6. The annual license fee for the registration of a commercial motor vehicle or truck-tractor shall be based upon the gross weight and tire equipment of the vehicle, as follows:

## Fee Per 100 Lbs. or Fraction Thereof

"Gross Weight in Lbs.	Equipped With	Equipped With
	Pneumatic Tires	Solid Rubber Tires
1- 6,000 .....	\$ .20	\$ .25
6,001- 8,000 .....	.25	.30

22,001-26,000 .....	1.60	2.00
26,001 and up .....	4.00	5.00

"The term "gross weight," as used in this Section, shall mean the actual weight of the vehicle fully equipped with body and other equipment, as certified by any official public weigher, or any license and weight inspector of the State Highway Department, plus its net carrying capacity. "Net carrying capacity" of any vehicle, except a bus, as used in this Section, shall be the weight of the heaviest net load to be carried on the vehicle being registered; provided, said net carrying capacity shall in no case, be less than the manufacturer's rated carrying capacity. "The net carrying capacity" of a bus, as defined in this Act, shall be computed by multiplying its seating capacity by 150 pounds. "The seating capacity," of any such vehicle, shall be the manufacturer's rated seating capacity, exclusive of the driver's or operator's seat. The seating capacity of any such vehicle, not rated by the manufacturer, shall be determined by allowing one passenger for each sixteen inches that such vehicle will seat, exclusive of the driver's or operator's seat."
